Entry Level Single Processor Server	
Quad-Core Intel® Xeon® Processor E3-1230 3.2GHZ	\$2,199
Intel S1200BTL Server Board Quad-Core Intel® Xeon® Processor E3-1230 3.2GHz 8MB L2 Cache 5GT/s QPI 16 GB 1333MHz DDR3 ECC memory 2-1TB 7200RPM 32MB Buffer SATA 600 Hard Disk (RAID 1 mirrored) 24X Internal DVD Dual RW Double Layer 2-10/100/1000 LAN controllers Integrated Intel Server Chassis P4304, 365Watt PSU Keyboard & MS Wheel Mouse	

17" LCD TFT 1280 x 1024 Monitor	\$119
eSATA/USB 1TB external hard disk for backup (qty 2 for off-site rotation)	\$519
Tripp-Lite SMART1500SLT UPS battery backup solution	\$439
Microsoft Windows Small Business Server 2011 Standard Edition includes 5 client access license	\$949
Microsoft Small Business 5 Client add-on	\$379
Symantec Corporate Anti-Virus 5 clients & 1 server	\$219
Estimated effort to setup and configure server with 5 PC's (20 hours) (estimated at 3 hours per PC and 5 hours for server and e-mail configuring)	\$2,500

Monitor , motherboard, processor, memory, & hard disk have a three parts warranty from the manufacturer. Remaining parts have one year warranty.

Hottman Computers equips server systems with Intel Xeon Processors & motherboards, offering several benefits, including fast performance for excellent productivity, high power to run the latest applications, superior performance and broadband Internet support. With Intel inside, you also get peace of mind stemming from an unmatched track record in compatibility, reliability and performance. Discover the difference a system validated by Intel can make.
